

## Bra Features

### SOFT ORGANIC COTTON

Eco-friendly - grown without synthetic, toxic pesticides and GMO seeds.

### SEWN INSIDE OUT

Rough seams never touch incisions.

### WIDE, ADJUSTABLE STRAPS

Meet the needs of diverse body types.

### HOOK & EYE FRONT CLOSURE

Makes it easy for nurses to fasten.

### LATEX-FREE ELASTIC

Eliminates possible rubber allergies.

### HIGH UNDERARM COVERAGE

Prevents scars from rubbing on clothes.

### FULL BACK COVERAGE

Minimizes shoulder/neck pressure.

## What People Say

“My new bras are so comfortable. No seams going across the incisions, no rolling up under my breast. Simply amazing!” – Eva

“BraLisa is a huge hit with my patients. They have made all the difference in helping my patients to comfortably heal.” – Dr. Scott

“We love the design. It’s a pretty and comfortable post-surgical bra that can be worn for nocturnal support” – Nurse, Cancer Rehab

“I feel very comfortable all day in BraLisa. I am in post-cancer treatment and I feel well-protected and tucked-in.” – Laurie

The Post-Op Bra  
Women Want  
To Wear

# Women Need a Better Bra to Heal

97% of the women BraLisa surveyed agree that after surgery it's impossible to find a bra they can comfortably wear all day and at night.

**Synthetic fabrics and unlined elastic used in most post-op bras often scratch and can cause painful skin irritations.**

# BraLisa is Better!

After testing bra styles on numerous women after breast surgery, we created a bra that women love - and doctors do too!

Women say BraLisa feels like a comforting hug

# Comfort - Key to Optimum Recovery

**Our organic cotton fabric and seamless cups feel supportive and super-soft against the skin.**

BraLisa ditched the itch and other common post-op bra problems so women can relax and focus on their healing.

# A Game Changer

*"It's wonderful feeling supported by a bra without elastic and seams poking the whole day. It's like I'm not wearing a bra at all!"*  
– Shelley
